With the Rolling Stones, Keith Richards created the riffs, the lyrics and the songs that roused the world, and over four decades he lived the original rock and roll life: taking the chances he wanted, speaking his mind, and making it all work in a way that no one before him had ever done. Now, at last, the man himself tells us the story of life in the crossfire hurricane. And what a life. Life is a memoir by the Rolling Stones guitarist Keith Richards, written with the assistance of journalist James Fox. Published in October 2010, in hardback, audio and e-book formats, the book chronicles Richards' love of music, charting influences from his mother and maternal grandfather, through his discovery of blues music, the founding of the Rolling Stones, his often turbulent relationship with Mick Jagger, his involvement with drugs, and his relationships with women including Anita Pallenberg "Jesuschrist, Keith." "Keep your cool, Freddie, I've got all the ones out of mine, have you got all the ones out of yours?" "I think so, I think so." I never knew I had that much coke in my life! The sleeper was Freddie's briefcase, which was in the trunk of the car, as yet unopened and we knew he had cocaine in there. They couldn't fail to find it. Keith Richards was born in London in 1943. A guitarist, vocalist, songwriter, and cofounder of the Rolling Stones, he has also released solo albums with his band, The X-Pensive Winos. He lives in Connecticut with his wife, Patti Hansen. James Fox was born in Washington, D.C., in 1945 and has known Keith Richards since the early 1970's when he was a journalist for the Sunday Times in London. What consumed most of Keith Richards'™ life was drugs. Oh Lord, do we read about drugs.
