I'm just bitter because I had to spend almost 200 bucks for a freaking book. if you bought hibbeler's statics&dynamics 13e book you can see my rant on the similarity between editions. The same goes here. As always publishers are looking to make more money off broke students, so even though not much has changed since the last edition, you still have this book that covers the exact same material but with a different cover picture.
