410 books based on 1226 votes: Heir to the Empire by Timothy Zahn, Path of Destruction by Drew Karpysyn, The Last Command by Timothy Zahn, Dark Force Ri...
Score. A book's total score is based on multiple factors, including the number of people who have voted for it and how highly those voters ranked the book. All Votes Add Books To This List. 1. Star Wars is an American epic space-opera media franchise, centered on a film series created by George Lucas that includes Star Wars (1977), The Empire Strikes Back (1980), and Return of the Jedi (1983). The series depicts the adventures of various characters "a long time ago in a galaxy far, far away". Many derivative Star Wars works have been produced in conjunction with, between, and after the original trilogy of films, and later installments. This body of work was collectively known as the Star Wars Expanded Universe, and yet the books still exist, and they are still worth reading, as are some of the new ones that have debuted since Disney took over, even if it's a new era entirely. (As ever, always start with the first book in each series.) Here are the best book series in Star Wars history. The Heir Trilogy (Heir to the Empire, Dark Force Rising, The Last Command) by Timothy Zahn. Disney. In Star Wars Dark Nest III: The Swarm Battle we have the significant verdict to the Dark Nest trilogy where the Killik Crisis as well as the split in the Jedi Order are managed. Both of these circumstances had actually been left on a cliffhanger from The Unseen Queen and also both in my opinion are perfectly resolved in The Flock War, although some points are left intentionally open as to lead into the Tradition of the Force collection. Star Wars "Slave Ship" Audio Book.
