The most important works of Edmund Burke, the greatest political thinker of the past three centuries, are gathered here in one comprehensive volume. Accompanying his influential masterpiece, *Reflections on the Revolution in France*, is a selection of pamphlets, speeches, public letters, private correspondence and, for the first time, two important and previously uncollected early essays. Philosopher, statesman, and founder of conservatism, Burke was a dazzling orator and a visionary theorist who spent his long political career fighting abuses of power. We believe there is no need of an apology to the public for offering to them any genuine speeches of Mr. Burke: the two contained in this publication undoubtedly are so. The general approbation they met with (as we hear) from all parties at Bristol persuades us that a good edition of them will not be unacceptable in London; which we own to be the inducement, and we hope is a justification, of our offering it.
