Description:

About the Author Born in Washington, D.C. and raised in a family of naturalists, Jean George has centered her life around writing and nature. She attended Pennsylvania State University, graduating with degrees in English and science. In the 1940s she was a member of the White House press corps and a reporter for the *Washington Post*. Ms. George, who has written over 90 books - among them *My Side of the Mountain* (Dutton), a 1960 Newbery Honor Book, and its sequels *On the Far Side of the Mountain* and *Frightful's Mountain* (both Dutton) - also hikes, canoes, and makes sourdough pancakes. In 1991, Ms. George became the first winner of the School Library Media Section of the New York Library Association's Knickerbocker Award for Juvenile Literature, which was presented to her for the "consistent superior quality" of her literary works.

Her inspiration for the Newbery Medal-winning *Julie of the Wolves* evolved from two specific events during a summer she spent studying wolves and tundra at the Arctic Research Laboratory of Barrow, Alaska: "One was a small girl walking the vast and lonesome tundra outside of Barrow; the other was a magnificent alpha male wolf, leader of a pack in Denali National Park ... They haunted me for a year or more, as did

the words of one of the scientists at the lab: 'If there ever was any doubt in my mind that a man could live with the wolves, it is gone now. The wolves are truly gentlemen, highly social and affectionate.'

The mother of three children, Jean George is a grandmother who has joyfully red to her grandchildren since they were born. Over the years Jean George has kept 173 pets, not including dogs and cats, in her home in Chappaqua, New York. "Most of these wild animals depart in autumn, when the sun changes their behavior and they feel the urge to migrate or go off alone. While they are with us, however, they become characters in my books, articles, and stories."

There you go! That is a chapter one for ya! The cry of the crow, by Jean Craighead George, didnt really catch my attention in the beginning of the book. For the first few chapters it was kind of slow and not too exciting. Basicly it wasnt the kind of book that I was used to reading. However, after a while into the book, I started to like it. Even though it was still slow, I enjoyed the story about how she raised and kept the baby crow to herself with almost no help. Although the ending was a bit sad, i liked it. I recomend this book to anyone who would like to enjoy an unforgettable story. The screams and cries of the poor crow.Â Get notified when The Cry of the Crow is updated. Sign up with Facebook.
