When the Birds Fly South is a lost race fantasy novel by American writer Stanton A. Coblentz, defined as a "significant tale involving avian theriomorphy." It was first published in hardcover by The Wings Press, Mill Valley, California in 1945 and reprinted in 1951. Its importance in the history of fantasy literature was recognized by its republication by the Newcastle Publishing Company as the twenty-third volume of the Newcastle Forgotten Fantasy Library in April, 1980. The Newcastle edition was Bird Flies South book. Read reviews from world's largest community for readers. When a child is learning to read, every word counts! Bird is tired of ra... Enlarge cover. Birds that eat those foods must fly south to find food to survive. Other birds that eat seeds or bugs that live under tree bark often hang around, since they can continue to find food all winter long. While some birds instinctively migrate at certain times of the year, scientists believe birds won't fly south without specific environmental cues, the reason being lack of food. As long as food remains available, some birds will delay migration or won't leave at all. In fact, some experts believe the widespread use of bird feeders may allow some species of birds to stop migrating and be...
