The dimensions of a rigid container (cage) in length, width and height should not exceed 46x28x22 cm, several animals/birds of the same species can be in the container, while the animals should be able to lie in a natural position, stand up to their full height and touch the ceiling. One of My First Train Books, and the Best. Published by Thriftbooks.com User , 20 years ago. At 38 years of age, I don't feel I'm old enough to say things like "they just don't make 'em like they used to," but I'll say that about this book. This was the second train book I got as a young boy, after a Christmas present book on train wrecks. I've bought quite a few others over the years, but this one remains supreme for me, I guess because you just can't find what lies between its pages in real life anymore. All black and white photography, the images in a pageant wagon is a movable stage or wagon used to accommodate the mystery and miracle play cycles of the 10th through the 16th century. These religious plays were developed from biblical texts; at the height of their popularity, they were allowed to stay within the churches, and special stages were erected for them. Pageant comes from the archaic word for the wagon stage, "pagyn." It is a word used to describe the movable stage on which a scene of the processional religious play was performed.
