Description:

Small enough to fit in a pocket yet serious enough to provide real answers, this charmingly illustrated book is the ultimate field guide to domestic architecture. This sixth entry in the hugely popular "How to Read" series is a one-stop guide to understanding house styles. The book explains the aesthetics of house forms ranging from elaborately decorated Arts & Crafts architecture to the purity of modernist homes. "How to Read Houses" is the perfect companion for anyone interested in the buildings we live in and who desires a detailed field guide to the houses around us. "How to Read Houses" first equips the reader with the visual vocabulary to recognize house types, materials, and parts, then it demonstrates these features in a range of architectural styles. Illustrated throughout with detailed line drawings and full-color photographs, this handy guide will illuminate the reader's experience when visiting new cities, touring landmark houses such as Jefferson's Monticello or Edith Wharton's The Mount, and lay the foundations for a revealing architectural exploration of local neighborhoods.

How to Read Houses is an insider's guide to recognising and appreciating the diversity of domestic architecture that reflects the location, the fashion and the technological savoir-faire of the age - from Tudor timber-frames to the truly unconventional. Houses are arranged by period and style, including Renaissance, Neoclassical, Arts and Crafts, Modernist and many more besides. Featured houses range from Sutton House in London to Port Sunlight in Merseyside; from St Fagans in Cardiff to Hill House in Glasgow. Compact enough to travel with you, yet comprehensive enough to provide real answers.

A crash course in some of our favorite American residential architecture styles. Until you move away from Louisiana, you might not ever realize exactly how unique the shotgun house layout truly is to New Orleans. Or the brownstone to Brooklyn. So in the name of fun, education and, yeah, a little perspective, here's a brief rundown of some of the residential architecture you'll spot across America: Save. Pin It See More Images. (Image credit: Jacqueline Marque). Wikipedia defines this house style as a narrow rectangular domestic residence, usually no more than about 12 feet wide, with rooms arranged one behind the other and doors at each end of the house. In other words, you could shoot a shotgun from the front door to the back and not pass through any walls.
