Stringer and Andrew Jotischky, Eds., Norman Expansion: Connections, Continuities, and Contrasts. Farnham, Surrey, UK, and Burlington, VT: Ashgate, 2013. Pp. A narrative voice makes this book a truly enjoyable read, and carefully reviewed and revised updates to this edition offer the utmost clarity in contributions based on recent scholarship. Extensive captions for the book's incredible art program offer profound insight through the eyes of twentieth-century art historians speaking about specific pieces of art featured throughout. For forty years, this widely acclaimed classic has remained unsurpassed as an introduction to art in the Western world, boasting the matchless credibility of the Janson name. This newest update features a more contemporary, more colorful design and vast array of extraordinarily produced illustrations that have become the Janson hallmark. This book discusses the most famous translunar literary voyages "from Dante's Paradiso to H.G. Wells's The First Men in the Moon" and examines how humanity's fascination with flight away from the earth coincides with our anxiety about technology and the growing schism between the sciences and the humanities. Authors of post-Apollo era novels such as John Updike (Rabbit Redux) and Saul Bellow (Mr. Sammler's Planet) reiterate much of the awe and many of the concerns expressed by their literary predecessors. This study shows how the translunar narrative is an especially fruitful Book Review. General. Aaron Parrett. The Translunar Narrative in the Western Tradition. vii + 140 pp., index.
